

CDG to Exhibit, Make Presentation at S1000D User Forum and ADL/SCORM Performance Fest

May 23, 2006 – Continental DataGraphics (CDG) will participate as an exhibitor at the upcoming S1000D User Forum and ADL/SCORM Performance Fest in Clearwater, Florida on May 29 – June 2, 2006. This annual User Forum is considered one of the premier events for the S1000D publications specification user community.

Mr. Ian Proctor, Technical Manager of CDG's Knaresborough, U.K. operations will be a guest speaker at the S1000D User Forum along with Mr. Ian Boulton of Logistic Business Systems (LBS). Multimedia is a new addition to Issue 2.3 of the S1000D specification, and this presentation by Mr. Proctor and Mr. Boulton will outline proposed solutions for incorporating multimedia into the specification, present customer use cases for incorporating multimedia using the spec, and provide sample demonstrations of how multimedia was implemented into specific publications using S1000D. Following their presentation, Mr. Proctor and Mr. Boulton will conduct an open forum discussion on the topic of the future of multimedia, in an effort to collect and share information and ideas from forum attendees.

Ian Proctor currently serves as the Team Leader for the Multimedia Working Group of S1000D. The S1000D Multimedia Working Group includes representative members from Boeing, Airbus, the UK Ministry of Defence (UK MoD), Logistic Business Systems (LBS), and several other leading organizations. The Multimedia Working Group members work collectively as a team to discuss and further develop the S1000D specification, with specific attention given to how multimedia can be incorporated into S1000D to accommodate the requirements of the broader S1000D user community.

For more information about the S1000D User Forum and ADL/SCORM Performance Fest, visit the event web site at: <http://www.cts-events.co.uk/> or the S1000D web site at www.s1000d.org.
