

CDG to Host Seminar: “Best Practices in Accounting Workflow”

Educational Seminar to Highlight Success Stories, Technology Tools Supporting Accounting Workflow Process Improvements

October 11, 2006 – CYPRESS, CA – CDG will host a free educational seminar designed for accounting professionals entitled “Best Practices in Accounting Workflow.” Scheduled for Thursday, November 9th, the seminar is designed to provide an overview of how technology and tools have been successfully applied to achieve significant improvements in accounting workflow processes.

Included in the seminar are presentations from CDG customers CTS Cement Manufacturing and International Rectifier. Both will describe their specific hands-on experiences in implementing document imaging processes and workflow management tools, and the resulting benefits derived for their business operations.

Also presenting at the seminar are CDG alliance partners Hyland Software and Kofax. Hyland will highlight examples of how software tools have been applied to help companies achieve significant improvements in efficiency, and will provide an overview of their popular OnBase® software solutions. Kofax will provide an overview of the imaging capture process as applied to accounting workflow and will demonstrate its popular applications Ascent for Payables and Document Scan Server, winner of the Best of Show Award at the recent 2006 AIIM Conference and Exhibition.

The seminar is free to pre-registered attendees, and will be hosted in CDG's Cypress, CA facility.

For more information about CDG's “Best Practices in Accounting Workflow” seminar, or to register online, visit the seminar information web page at: www.cdgnow.com/workflow/register.

About CDG
